

Family Escape Plan Call 9-1-1 for an Emergency

Have fun together creating your family fire escape plan:

- Draw a plan of your house showing all exits from each room (doors and windows)
- Draw a **CIRCLE** to identify where smoke alarms are (every level and every bedroom)
- Draw ARROWS to identify every exit from each room (know 2-ways out of every room)
- Select a "Family Meeting Place" outside of the home where everyone in your household will gather in the event of a house fire.
